

CLEANING UP SPILLS SINCE 1985

1985 CENTRAL PENNSYLVANIA

New Pig is a US-based company that got its start in the Central Pennsylvania town of Tipton. Our company headquarters and manufacturing facilities are there to this day.

1987 ASIA

Two years after our company began, we introduced the product that kicked off the absorbents industry, our PIG Original Sock, into the Asian marketplace.

1993 MEXICO & LATIN AMERICA

We brought our DrainBlockers, SpillBlockers and our PIG Mat—which remains today the world's #1 absorbent mat—to distributors in Mexico and Latin America.

1993 EUROPEAN EXPANSION

In 1993, New Pig established its first European presence with an office and distribution facility in Glasgow, Scotland, serving the whole of the UK.

2006 WORLDWIDE PRESENCE

By 2006, we expanded our reach to over 100 countries! More than 300,000 industrial, commercial, retail and healthcare facilities worldwide are choosing PIG to solve their leak and spill problems.

TODAY

Our mission is to help you keep your workplace clean and safe. Our team knows and understands your local market and is proud to bring our products into new workplaces every day.

THE POWER OF PIG

Our product developers take customer feedback into our laboratory and proceed to leak and spill, catch and contain, build and demolish until we create the perfect solutions for you.

PIG LEAK DIVERTERS

Don't end up with damaged goods! Protect your inventory with a PIG Leak Diverter.

WHY BUY A PIG LEAK DIVERTER?

- **Roof and pipe leaks can be catastrophic** and result in ruined inventory, lost production time and possible injuries. How much can you afford to lose?
- **Be prepared!** That storm is coming. Avert disaster by keeping PIG Leak Diverters on hand before you need them.
- **Get the best!** Only PIG Leak Diverters deliver the top-quality and wide selection that can keep you covered in any situation.
- **Keep your employees safe.** Roof leaks cause wet floors and wet floors cause slips and falls. PIG Diverters help you comply with regs stating that your floors must be kept dry and safe.

Here's how it works...

Collection tarp captures liquid and funnels it to the hose connection.

Hose channels liquid to a floor drain or collection container.

SELECTING THE RIGHT LEAK DIVERTER.

New Pig offers the biggest variety of leak diverter styles and options, each tailored to specific leak and drip challenges in your workplace. Follow these steps to pick the right one for you.

- 1** **Survey the spots where you're most likely to have a leak:** roof, ceiling, pipes, HVAC, etc.

- 2** **Choose the diverter size and style** that matches the leak area. Custom sizes are also available. Contact your authorised PIG Distributor.

- 3** **Decide on the colour:** clear and translucent diverters are easily inspected and let light through; hi-viz yellow sends a clear safety message; grey blends in with surroundings.

- 4** **Choose the appropriate hanging straps and hose** (shown on page 104 for your application).

- 5** **Consider whether you want to divert the leak into a drain** or use a container to collect the liquid (see Tote-N-Stor Tanks on page 104).

- 6** **Still not sure which diverter fits your workplace?** Contact your authorised PIG Distributor.

TYPES OF PIG LEAK DIVERTERS: What type do you need?

PIG Trough and Sloping Style Leak Diverters

Protect your people and equipment.

Trough style diverter’s long rectangular shape catches and channels leaks or condensation along cracks, fissures or pipes. When fitted around pipes with attached hook-and-loop strips, the sloping style diverter’s natural slope helps it catch and channel leaks to a drain or container.
