

CLEANING UP SPILLS SINCE 1985

1985 CENTRAL PENNSYLVANIA

New Pig is a US-based company that got its start in the Central Pennsylvania town of Tipton. Our company headquarters and manufacturing facilities are there to this day.

1987 ASIA

Two years after our company began, we introduced the product that kicked off the absorbents industry, our PIG Original Sock, into the Asian marketplace.

1993 MEXICO & LATIN AMERICA

We brought our DrainBlockers, SpillBlockers and our PIG Mat—which remains today the world's #1 absorbent mat—to distributors in Mexico and Latin America.

1993 EUROPEAN EXPANSION

In 1993, New Pig established its first European presence with an office and distribution facility in Glasgow, Scotland, serving the whole of the UK.

2006 WORLDWIDE PRESENCE

By 2006, we expanded our reach to over 100 countries! More than 300,000 industrial, commercial, retail and healthcare facilities worldwide are choosing PIG to solve their leak and spill problems.

TODAY

Our mission is to help you keep your workplace clean and safe. Our team knows and understands your local market and is proud to bring our products into new workplaces every day.

THE POWER OF PIG

As you browse through this catalogue, you'll notice a wide variety of the brand customers worldwide know and trust—PIG! Whether you're looking for our high-quality absorbents or prefer our economy PIG Essentials product line, there's a New Pig product for every need. Nobody beats the quality, engineering and performance of PIG.

✓ MARKET LEADERS

New Pig has been recognised as the world's leading manufacturer of leak and spill products since 1985. You can be sure you will get high-quality products that are workplace-proven.

✓ TRUSTED EXPERTS

We've developed years of knowledge and expertise working with industries to help them make their workplaces cleaner, safer, and better. We are focused on providing the best solutions for our customers' leak and spill needs.

✓ FULL-SERVICE PROVIDERS

Our comprehensive product range is just one of the reasons why industries across the world look to us as a trusted supplier. New Pig has the answers to all your leak and spill needs.

✓ INNOVATORS

We've piled up dozens of product awards over the years, but our real measure of success comes from solving your problems. Our product developers take customer feedback into our laboratory and proceed to leak and spill, catch and contain, build and demolish until we create the perfect solutions for you.

PROTECTING MORE THAN A DRAIN.

Keep your water sources and environment clean with PIG.

BLOCKERS, DIKES, BERMS & FILTERS

PIG-proven ways to protect drains and control liquids.

COVER DRAINS

PIG DrainBlocker Drain Cover

- Seals tight to keep out unwanted liquids
- Won't rip, tear or stretch when you pick it back up
- Use for fast spill response or long-term outdoor deployment without UV degradation

See pages 92–93

CONFINE & CHANNEL SPILLS

PIG SpillBlocker Dike

- Flexible and formable to the shape of the spill
- Tacky bottom layer seals tight so no liquid seeps underneath
- Confines spills or channels washdown liquids without absorbing them

See pages 94–95

BUILD CUSTOM CONTAINMENT

PIG Build-A-Berm Barrier

- Configure a semipermanent barrier to fit your leak-prone areas
- Pliable foam construction springs back to shape so you can roll wheeled equipment right in
- Big savings compared to building concrete curbs or cutting angle iron

See pages 96–97

FILTER POLLUTANTS FROM WATER

PIG Drain Filters

- Capture sediment, trash and debris to keep drains from clogging
- Available for drains of different sizes and shapes
- Easy to install, maintain and remove

See pages 98–101

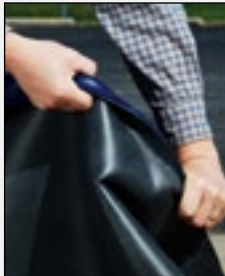

OUR TOUGHEST DRAINBLOCKER CAN TAKE WHATEVER YOUR PARKING LOT DISHES OUT.

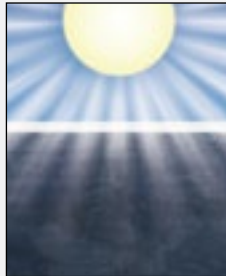

Punctures
Stands up to debris and sharp objects that damage other covers.

Abrasion
Won't wear down even when tyres track on dirt and gravel.

Tearing
More tear resistance means it won't rip or shred.

UV & IR Light
Made to take the baking sun in your car park.

Chemicals
Resists many commonly used chemicals to keep drains secure.

PIG Drive-Over DrainBlocker Drain Cover

Tough enough for tanker traffic.

Semipermanent drain protection made of patented rubber HogHyde Skin stands up to punctures, tearing and abrasion. Conforms to uneven surfaces and seals tightly.

SCAN with a smart phone.

Durable enough for driveovers! See the toughest, longest-lasting, and best-sealing covers on the market in action.

THESE TOUGH COVERS PROTECT YOUR DRAINS — NO RIPS, NO TEARS, NO WORRIES!

Tear Resistant – Tougher than standard covers to resist ripping.

Easy to Clean – Dirt and grime won't stick to the surface.

Chemical Resistant – Stands up to long-term hydrocarbon exposure.

Round Covers – Available in sizes for drains up to 61cm dia.

UV & IR Light Resistant – this cover is made for long-term outdoor use.

Rectangular Covers – Perfect for long or narrow drains.

PIG DrainBlocker Drain Cover

Protects drains and seals tight.

Our patented two-layer design seals tight to protect drains and won't rip, guaranteed. Use this cover for quick spill response or long-term, outdoor deployment without worrying about degradation. The cover withstands prolonged exposure to diesel fuel and petrol, even when completely submerged.

PIG Drain Covers are reusable, easy to clean, and come with a five year warranty.

PIG Drive-Over
Build-A-Berm Barrier
Handles heavy traffic!

Provides semipermanent containment in high-traffic areas on concrete, asphalt or most sealed surfaces; for best results, use on a smooth, sealed surface. Berm compresses to approximately 6mm when driven over, then springs back to shape when vehicles pass. A silicone sealant and vinyl fabric cement (not included) are both required for proper installation.

When used with standard Build-A-Berm Barriers (page 96), orange colour indicates area where drivers can enter and exit.

FilterSoxx

Protect storm drains from sediment, pollutants and chemicals.

Organic compost/mulch filler achieves 97.2% total solid removal; also filters oils, diesel, gasoline and hydrocarbon sheens. Barrier provides effective erosion and sediment control with constant-flow filtration. Available in two options: PetroLoxx additive removes oily pollutants from stormwater and MetaLoxx additive captures and retains heavy metals such as copper, lead, zinc and chromium.

PIG Storm Drain Filter

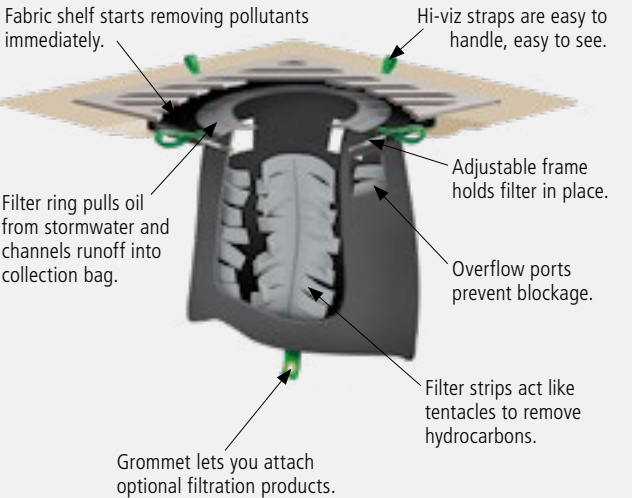

Adjustable frame and 4-stage filtration guard your drains against oily runoff.

Easy, one-person job to install, maintain or remove. Four-stage filtration: Stormwater flows through drain grate onto fabric shelf (Stage 1), passes over filter ring (Stage 2) into collection bag (Stage 3) and over four sets of filter strips (Stage 4). Filter ring (patent-pending) channels water to centre of collection bag to prevent untreated water from escaping through overflow ports.

A LOOK INSIDE OUR STORM DRAIN FILTER:

The reusable Drain Filter is easy to remove to dispose of collected sediment or for periodic maintenance.

FLT748

Integrated straps make positioning the Drain Filter in place an easy task — no need for rebar.

PIG Sediment Drain Filter

Collect debris and dirt to comply with regulations and protect drains.

Ideal for use in the construction industry and anywhere sediment collection is a concern. Constructed of a monofilament polypropylene that captures sand, dirt, sediment, trash, leaves, sticks and cigarette butts. Filters with overflow ports (FLT746, FLT748) allow excess water to release into drain during heavy flow or if filter is blocked; also provides an opening to collect samples of filtered stormwater.

Heavy Metal Filter Socks
(FLT822–FLT823) remove oil and sediment plus zinc, cadmium, lead and other dissolved metals.

FLT822

FLT823

Filter Socks also available for oil and sediment only (FLT820–FLT821 sold below).

PIG Stormwater Filter Sock

Keep your runoff free from pollutants.

Filter sock allows water to pass through as it removes oil, sediment, trash, debris and other pollutants from your stormwater runoff. Heavy Metal Sock (FLT822, FLT823) removes all of the above plus zinc, cadmium, chromium, lead and other dissolved metals. Patent-pending dual-chamber design: first chamber's filler pulls in hydrocarbons; second chamber is filled with stone ballast (FLT820, FLT821) or our special media blend (FLT822, FLT823) for two-stage filtration of heavy metals.
