U UNIVERSAL SPILL KITS

Also called "MRO" absorbents, they soak up the widest range of liquids — oils, coolants, solvents and water.

Common liquids absorbed: hydraulic oil, vegetable oil, gasoline, diesel fuel, antifreeze, water-based solvents, propylene glycol, acetone, toluene, xylene and MEK

See pages 72–79, 81, 84

ABSORBS OILS, COOLANTS, SOLVENTS AND WATER

O OIL-ONLY SPILL KITS

PIG Oil-Only Absorbents repel water, so you can clean up fuel and oil-based spills, even in outdoor applications.

Common liquids absorbed: motor oil, hydraulic oil, cutting oil, diesel fuel, synthetic oils, vehicle fluids, vegetable fluids and oil-based solvents

See pages 72–76, 78-79, 82, 87-89

ABSORBS OILS BUT NOT WATER

H HAZMAT SPILL KITS

PIG HazMat Absorbents are specially treated to soak up acids and bases without degrading or reacting.

Common liquids absorbed: sulfuric acid, hydrochloric acid, nitric acid, hydrofluoric acid, phosphoric acid, sodium hydroxide, potassium hydroxide and hydrogen peroxide

See pages 76–79, 83, 85

OURS
Even 98% sulfuric acid is completely absorbed.

THEIRS
Highly corrosive liquids just puddle on top.

ATTENTION: Independent testing indicates that PIG HazMat products are compatible with and absorb most acids and caustics. Due to variables and conditions of applications beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please contact your PIG Distributor.
